Essentials of Economics is the market leader for the one-semester survey course. In just about 400 pages, it provides a solid introduction to the core concepts of economics with an emphasis on real-world examples and current events. Essentials has earned its popular success because, unlike other books on the market, it is free of the abstract and complex theory that requires more time than this course allows. Instead, the text is clean and concise, with many examples of significance to students today, including Headlines and Policy Perspectives that use current events to help illustrate the topics discussed. This real-world policy emphasis is a distinctive feature of Schiller's text and is integral to its dominance of the survey text market.

Schiller's Essentials of Economics is the market leader for the one-semester survey course, praised for its strong policy focus and core theme of seeking the best possible answers to the basic questions of WHAT, HOW, and FOR WHOM to produce. The 9th edition is benefitted by SmartBook, the first adaptive reading experience designed to engage students with the content in an active and dynamic way, as opposed to the passive and linear reading experience they are used to. As a result, students are more likely to master and retain important concepts in the survey course. As in previous editions, students are confronted early on with the reality that the economy doesn't always operate optimally, either at the macro or micro level, and are encouraged to examine the policy challenge of finding the appropriate mix of market reliance and government regulation that generates the best possible outcomes. In addition to the suite of resources available within Connect Economics, over 100 key topics are reinforced with interesting and innovative videos on YouTube, provided to help non-majors see the relevance of economics. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

"Election campaigns bring out the best and the worst economic ideas. Virtually every candidate promises a "chicken in every pot," without regard to the supply of chickens. They will clean up the environment, fix our schools, put more police on the streets, build more affordable housing, and, of course, guarantee every American access to quality health care. And they'll do this while cutting taxes, subsidizing alternative energy sources, and rebuilding America's infrastructure"--

Never HIGHLIGHT a Book Again! Includes all testable terms, concepts, persons, places, and events. Cram101 Just the FACTS101 studyguides gives all of the outlines, highlights, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Building on the tremendous success of their best-selling Economics, Brue, McConnell, and Flynn have revised their one-semester approach in Essentials of Economics, 3e to provide a fresh alternative for the survey course. The result is a patient, substantive treatment of micro and macro topics appropriate for the introductory economics student, and fully integrated in the digital environment to provide instant remediation and feedback through McGraw-Hill's innovative assessment tool Connect Plus Economics. McGraw-Hill's adaptive learning component, LearnSmart, provides assignable modules that help students master core concepts in the course.
