software applications
delivered to users on demand
from the cloud, high-
capacity, auto-replicated,
secure cloud-based disk-
storage and databases,
virtualized-server and

About the Book Recent
industry surveys expect the
cloud computing services
market to be in excess of

Bookmark File PDF Cloud Computing Mr Ray Rafael

\$20 billion and cloud computing jobs to be in excess of 10 million worldwide in 2014 alone. In addition, since a majority of existing information technology (IT) jobs is focused on maintaining

Bookmark File PDF Cloud Computing Mr Ray Rafael's

legacy in-house systems, the demand for these kinds of jobs is likely to drop rapidly if cloud computing continues to take hold of the industry. However, there are very few educational options available in the

Bookmark File PDF Cloud Computing Mr Ray Rafael's

area of cloud computing beyond vendor-specific training by cloud providers themselves. Cloud computing courses have not found their way (yet) into mainstream college curricula. This book is written as a textbook on

Bookmark File PDF Cloud Computing Mr Ray Rafael

cloud computing for educational programs at colleges. It can also be used by cloud service providers who may be interested in offering a broader perspective of cloud computing to accompany their

Bookmark File PDF Cloud Computing Mr Ray Rafael

own customer and employee training programs. The typical reader is expected to have completed a couple of courses in programming using traditional high-level languages at the college-level, and is either a

senior or a beginning graduate student in one of the science, technology, engineering or mathematics (STEM) fields. We have tried to write a comprehensive book that transfers knowledge through an
