Yes!! That is exactly what. 6 years ago I had moved to a new state and our landlord wouldn't let us have pets. I had to find new homes for 3 dogs and a cat which tore me apart. I consider my pets my family. They mean so much to me. I'd been dying to have a new dog for years and it's fantastic to have one again.

What is the real legacy of divorce? To answer this question, Constance Ahrons, Ph.D., interviewed one hundred and seventy-three grown children whose divorcing parents she had interviewed twenty years earlier for her landmark study, the basis of which was the highly acclaimed book *The Good Divorce*. What she has learned is both heartening and significant. Challenging the stereotype that children of divorce are emotionally troubled, drug abusing, academically

Challenged, and otherwise failing, Dr. Ahrons reveals that most children can and do adapt, and that many even thrive in the face of family change. Although divorce is never easy for any family, she shows that it does not have to destroy children's lives or lead to a family breakdown. With the insight of these grown children and the advice of this gifted family therapist, divorcing parents will find helpful road maps identifying both the benefits and the harms to which postdivorce children are exposed and, ultimately, what they can do to maintain family bonds.

Supposed safety of a bucolic camp for families, Jack discovers that the plague of cannibalism that has claimed so many cities, is here as well. Worse, another change has taken hold with humanity – and that very word...humanity did not apply any more.
