I read Leadership Is an Art by Max DePree for the first time almost 30 years ago. I highlighted it, wrote in the margins, and learned some of its lessons. I thought it was a great book then. When I opened the book this past summer, I was amazed by two things. I was amazed that I had not opened this book in more than two decades.

The art of leadership, as Max says, is “liberating people to do what is required of them in the most effective and humane way possible.” To do this effectively requires clear thinking about their own beliefs: They must have thought through their assumptions about human nature, the role of the organization, the measurement of performance (and the host of other issues...) Verified Purchase. Upon the recommendation of a respected leader, I picked up two books from Max DePree, Leadership Jazz and Leadership is an Art. I decided to read Jazz first and I really enjoyed that book. It made me excited for Art. However, my expectations may have been a bit too high.

In what has become a bible for the business world, the successful former CEO of Herman Miller, Inc., explores how

executives and managers can learn the leadership skills that build a better, more profitable organization. Leadership Is an Art has long been a must-read not only within the business community but also in professions ranging from academia to medical practices, to the political arena. First published in 1989, the book has sold more than 800,000 copies in hardcover and paperback. This revised edition brings Max De Pree's timeless words and practical philosophy to a new generation of readers. De Pree looks at leadership as a kind of stewardship, stressing the importance of building relationships, initiating ideas, and creating a lasting value system within an organization. Rather than focusing on the "hows" of corporate life, he explains the "whys." He shows that the first responsibility of a leader is to define reality and the last is to say thank you. Along the way, the artful

leader must:

- Stimulate effectiveness by enabling others to reach both their personal potential and their institutional potential
- Take a role in developing, expressing, and defending civility and values
- Nurture new leaders and ensure the continuation of the corporate culture

Leadership Is an Art offers a proven design for achieving success by developing the generous spirit within all of us. Now more than ever, it provides the insights and guidelines leaders in every field need.

Since it was first published to wide acclaim in 1992, the bestselling Leadership Jazz has firmly placed itself among the great business classics. Former President Bill Clinton called it “astonishing,” and the late Peter Drucker advised, “Read this slowly. This book is wisdom in action.” Now updated for first

time in well over a decade, this powerful book reveals why today, more than ever, leadership is more an art than a science. Today's best leaders, De Pree says, are attuned to the needs and ideas of their followers, and even step aside at times to be followers themselves. Filled with insightful stories from De Pree's experience as the chairman of Herman Miller and from people he's met along the way, Leadership Jazz reveals how to:

- Hold people accountable and give them space to reach their potential
- See the needs of employees and those of the company as the same
- Inspire change and innovation
- Work effectively with creative people

Complete with an extensive new introduction from De Pree on why his philosophy is more relevant now than ever before, Leadership Jazz gives you an entirely new way to look at the difficult job of leader.

Uses nonprofit organizations as an example of a new style of management, which sets standards for leadership and service that all organizations can learn from

Called to Serve is for people with questions about creating and maintaining a successful nonprofit board. How can the board of a nonprofit organization work best? Now that I'm on such a board, what should I do? How can we find the best trustees? How should I think about my work for nonprofits? What kind of relationship between a board and the staff will work best? How can we organize and develop the service of busy, committed people? Internationally renowned CEO and best-selling author Max De Pree packs his many years of experience on nonprofit boards into these short letters directed to

busy folks active in nonprofit life. Brief, clear, and -- above all -- useful, *Called to Serve* notes the marks of an effective board, lays out the proper work of boards, gives choices for structuring a nonprofit board, and covers the roles and relationships of board chairpersons, trustees, and presidents. Today there are more than 1.5 million nonprofit organizations in America, with 109 million people working in this important sector of society. In spite of this surprising fact, very little training exists for this kind of service. *Called to Serve* is valuable not only because it fills this need but also because it comes from the pen of one of America's most experienced and respected business leaders.

Leadership in the workplace, says Max DePree, is like playing jazz; it's more an art than a science. Today's successful

managers are attuned to the needs and ideas of their followers and even step aside at times to be followers themselves. As a result, they spark vitality and productivity from their work force. They cultivate communication and spontaneity, diversity and creativity, and the unique potential of every person in the organization to contribute to the success of the team. In Leadership Jazz you'll learn

- How to hold people accountable but still give them space to make mistakes.
- How to balance the needs of your employees with those of the company.
- How to inspire change and innovation and maintain a sense of stability.
- How to practice the art of delegation.
- How to work constructively with creative people.
- How to assess candidates for senior positions.
- And much more!

Many people think leadership is a higher

# Online Library Leadership Is An Art Max Depree

calling that resides exclusively with a select few who practice and preach big, complex leadership philosophies. But as this practical book reveals, what's most important for leadership is principled consistency. Time and again, small things done well build trust and respect within a team. Using stories from his time at Netscape, Apple, and Slack, Michael Lopp presents a series of small but compelling practices to help you build leadership skills. You'll learn how to create teams that are highly productive, highly respected, and highly trusted. Lopp has been speaking and writing about this topic for over a decade and now maintains a Slack leadership channel with over 13,000 members. The essays in this book examine the practical skills Lopp learned from exceptional leaders—as a manager at Netscape, a senior manager and director at Apple, and an executive at Slack. You'll

The Frustrated Leader teaches leaders how to use frustration as energy to push them to the accomplishment of their vision versus being paralyzed by it.

Become an Artful Leader and Lead Your Employees and Company to Success Also known as the bible for the business world, Leadership is an Art explores how executives and managers can learn leadership skills that will build a better, more successful organization. You see, author Max De Pree doesn't just discuss leadership as a hierarchy where those at the top intimidate

# Online Library Leadership Is An Art Max Depree

those at the bottom to get things done. Instead, he views leadership as stewardship and focuses on the importance of building relationships and creating a lasting value system within an organization. An artful leader must be one that can enable others to reach their full potential and must take a role in developing, expressing, and defending the company's values. Good leadership is more than just leading a company to financial success, it's more about fostering relationships across all areas within an organization. As you read, you'll learn how to build meaningful relationships, how to motivate employees, and how to become an elegant leader.

The authors of this book explain the differences between managing by the 3-Ps (Proximity, Position, and Persuasion) and the 3-Cs (Clarity, Consistency, and

# Online Library Leadership Is An Art Max Depree

Connectivity). Leaders who employ the 3-Ps manage with a focus on the individual. Leaders who use the 3-Cs, however, manage by weaving personal leadership techniques with a process of managing the business or organization that has proven extremely effective during the decade since it was introduced. It's a way to lead a company or organization that leaves a legacy of sustained growth and success for those who come after the leader to latch onto and continue. The book is written as a business novel. What is learned on the protagonist's journey is expanded upon in a lesson at the conclusion of each chapter. Readers are then invited to assess their own legacy potential by completing a self-assessment. The management process this book contains is now being employed successfully not only by small and medium size businesses, but also by

## How To Develop The Leadership Characteristic Already Within You

Leaders change the world. Leaders inspire others. Leaders live their passion Vision Knowing what you want and where you are going is vital. The next step is picturing, in your mind, exactly what you want down to the smallest detail.

However, the most important piece of the puzzle is your WHY - the reason you want whatever it is you want. Without that it's game over. Courage You may have your purpose, but do you possess the guts to tell the world and follow it through. Courage needn't be loud and aggressive, more often it's a voice in your mind which compels you to keep trying. Integrity Are you honest? Do you speak what you believe?

# Online Library Leadership Is An Art Max Depree

Do you set the example for others to emulate? Are you a person of their word? Are you committed to becoming more than what you already are? Did you answer yes to all the above? Integrity is built upon these questions, leadership is built upon integrity. Humility The initial response to leadership and humility brings up images of oil and water - they cannot go together. On a second look you will find humility running through every great modern day leader. The role of a leader is to serve the people following them. Can you think less of yourself and more of others, to best meet their needs? It's not as easy as it sounds. Self Discipline If you cannot control yourself you will NEVER have the control of others. You will never be able to keep a team around you who complement your strengths and enhance your weakness. Without those people the dream is just that, a dream, and will never

# Online Library Leadership Is An Art Max Depree

become reality. Planning The first words that come to mind are usually -not again- accompanied with an eye roll. Many great people have said what I'm about to say - if you fail to plan you plan to fail. A plan is like the foundations when building a house. Without them all the work that's supposed to be carried out on top, will eventually collapse on itself. Influence The number one skill needed to be a great salesman and one of the 12 pillars of leadership. Influence is the ability to help people see what you see, to paint them the picture of how you see the future and for them to say -I want that too!- Decision My parents can't make a decision and it's frustrating as hell, especially when we go out for a meal. I ask them where they would like to go, I always get the same response -I'm easy-. As mad as this makes me I realised - people will not follow a leader who cannot decide what to do.

# Online Library Leadership Is An Art Max Depree

Listening Sorry to break your bubble, but you are not going to have all the great ideas. you are one mind among billions, someone else will have the same motives as you and will be able to help. Listen to them and by listen I don't mean hear what they say, actually listen with the intent to understand. Responsibility Can you handle it? The pressure, the weight of the dream on top of your shoulders. If you can't, would you turn down a new opportunity? Many people do! Communication You have the vision, the courage and the best plan since Steve Jobs released the iPhone, but can you tell me so they fully understand it without it taking a long time? It's not easy, but if it was everybody would be able to do it. Mentoring Help the people who follow you by sharing what you know. Not only do they learn, every time you share an idea you get to hear it again and again and again - repetition is

the mother of skill.
