Young learners learn best when activities last five to ten minutes, before they drift off-task. The 10 Minutes a Day series takes this research to heart, providing quick math exercises for children perfect for those time-to-fill moments at home, and based on one of the best and most effective learning strategies: little and often. Each book includes a ten-minute timer, beat the clock exercises, and easily photocopied pages, as well as tips, guidance, and answers for

parents.

The series is based on the NCER syllabus and follows the vision of National Curriculum Framework (NCF) 2005. The series emphasises on developing the thinking and reasoning skills among children. It connects mathematics with real-life situations. Books for Primer A, B, classes 1 and 2 are in workbook format. Enough practice has been provided so that children can master the subject.

"Place value, rounding, solving problems, line graphs, and more are all featured in 10 Minutes a Day: Math Grade 3 to help boost math skills in third graders. Accompanied with a digital timer, the 10 Minutes a Day series provides quick exercises testing a range of skills and knowledge."--Publisher's description.
