ACME Thread
Gauge - VHM
GAUGES

Because ACME threads are often used for precise manufacturing machines, it is vital to routinely inspect and calibrate the threads. An Acme thread ring gage is used to check

Where To Download Stub

tolerances; it will feature a GO and a NO GO member. If the threads are within tolerance, the GO member should completely screw on, and the NO GO member should not.

WESTport Corporation offers ACME GO/NO GO thread ring gages
