Posing (Free Posing Guide) The Photographers Guide To Posing In the first half of The Photographer's Guide to Posing, Lindsay discusses how the camera sees, and thus how camera angle, lens choice, and perspective all affect the appearance of your subject. Lindsay then covers the five most important things that ruin a pose—such as placement of the hands, and your subject's expression and posture.

wedding photographers for two simple reasons: Your clients/models/subjects will like their images more; You'll get more keepers on your shoots; It falls squarely into the "I wish I had this when I was starting out" category. And I liked it so much that it's the only posing book I recommend in my Best Portrait Photography Books article.

Flatter Everyone

There are a number of standing poses to start from. The first and most obvious is for the couple to stand head-to-head, looking straight into the camera, with her holding an arm on his chest. Take both close-ups as well as wider shots. Another very easy pose has the taller of the two holding the other from behind.
